

Tenure Track Faculty Position - Drug Discovery and Development (Assistant or Associate Professor)

University of Alberta

The Faculty of Pharmacy and Pharmaceutical Sciences is seeking an outstanding scholar for a full-time tenure-track position. The position will be in the field of Pharmaceutical Sciences (Medicinal Chemistry/Drug Discovery and Development or Drug/gene Delivery).

Applicants should demonstrate the potential to achieve international recognition in emerging fields related to Medicinal Chemistry/Drug Discovery and Drug/gene Delivery. Successful candidates will be expected to develop an innovative and robust externally-funded research program, regularly engage in relevant domestic and international research networks, teach both graduate and undergraduate students, and provide service to the Faculty and the University, as well as to professional and external communities.

We welcome applications from all qualified persons. We encourage First Nations, Metis, and Inuit persons; members of visible minority groups; persons with disabilities; persons of any sexual orientation or gender identity and expression; and all those who may contribute to the further diversification of ideas and the University to apply.

Working for the Faculty:

The University of Alberta is one of the world's top public universities. The Faculty of Pharmacy and Pharmaceutical Sciences is undergoing significant expansion and investment to meet our ambitious goal of being one of the leading academic centres internationally in Pharmacy and Pharmaceutical Sciences. The province of Alberta offers a growing life sciences sector and the most unique pharmacy practice environment in North America. Excellent opportunities exist for collaborative research with others within the Faculty, College of Health Sciences and University, including a wide variety of research institutes.

Position:

Situated on Treaty 6 territory, the Faculty of Pharmacy and Pharmaceutical Sciences invites applications for a tenure-track appointment at the rank of Assistant or Associate Professor. The higher rank will only be considered should the successful candidate possess an appropriate level of experience and commensurate achievements. The successful candidate will demonstrate a commitment to academic excellence, participate in teaching, conduct research and scholarly activities within their area of expertise, as well as contribute to advancing equity, diversity, and inclusivity at the university. Candidates must demonstrate excellent written and oral communication and interpersonal skills.

Key Responsibilities:

Teaching (standard allocation of time is 40%). Participate in teaching in undergraduate and graduate programs, mentorship and supervision of undergraduate and graduate students.

Research (standard allocation of time is 40%). Lead a program of research, participate in multidisciplinary and collaborative research, attract external funding and disseminate results.

Service (standard allocation of time is 20%). Participate in service to the Faculty, University and community.

Qualifications:

- Applicants must hold a PhD in a relevant field
- Post-doctoral experience
- Strong publication record
- Evidence of an identified research focus in one of the following areas:
 - Nanomedicines, drug/gene delivery or medicinal chemistry
 - Commitment to teaching excellence and supervision of undergraduate and graduate students

Application Process

Qualified candidates are invited to apply online by clicking the link below. Applications should include a letter of interest, curriculum vitae, a statement of research plans, and statement of teaching philosophy and interests. Applications are submitted online via the University of Alberta Careers website: <https://www.careers.ualberta.ca/>

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.

If you have questions about this position, please contact Dr. Ayman El-Kadi at <mailto:aelkadi@ualberta.ca>
